

## SEC-Required Report on Routing of Customer Orders for Quarter Ending June 30, 2017

Lime Brokerage LLC has prepared this report pursuant to a U.S. Securities and Exchange Commission rule requiring all brokerage firms to make publicly available quarterly reports on their order routing practices. The report provides information on the routing of “non-directed orders” – any order that the customer has not specifically instructed to be routed to a particular venue for execution. For these non-directed orders, Lime Brokerage has selected the execution venue on behalf of its customers.

The report is divided into four sections: one for securities listed on the New York Stock Exchange, one for securities listed on the Nasdaq Stock Market, one for securities listed on the American Stock Exchange or regional exchanges, and one for exchange-listed options. For each section, this report identifies the venues most often selected by Lime Brokerage, sets forth the percentage of various types of orders routed to the venues, and discusses the material aspects of Lime Brokerage’s relationship with the venues.

### SECURITIES LISTED ON NEW YORK STOCK EXCHANGE

#### Summary Statistics:

- Non-directed orders as a percentage of total customer orders: 0.456580%
- Market orders as percentage of total non-directed orders: 0.008233%
- Limit orders as percentage of total non-directed orders: 0.000000%
- Other orders as percentage of total non-directed orders: 99.991767%

#### Routing Statistics:

Venues Receiving Significant Percentage of Total Non-Directed Orders	% of Total Non-Directed Orders Received	Market Orders as a % of Total Non-Directed Orders	Limit Orders as a % of Total Non-Directed Orders	Other Orders as a % of Total Non-Directed Orders	Material Aspects of Relationship with Venue

## Customer Requests for Routing Information

In addition to the above quarterly report, under Regulation NMS Rule 606 customers may request disclosure of the venues to which their non-directed orders were routed in the six months prior to the request, and the times of the transactions, if any, that resulted from such orders. Written requests should be sent to:

Lime Brokerage LLC  
625 Broadway, 12<sup>th</sup> Floor  
New York, NY 10012  
Attn: Compliance Department

SEC Rule 606 exempts broker/dealers from identifying venues that received less than 5% of non-directed orders provided that at least 90% of all non-directed orders are identified. As a result, overall totals may not equal 100%.

Orders entered into an Algorithmic or Smart Order Routing system ("Parent Orders") are considered Not Held and are reflected in the Summary Statistics sections in "Other" orders. Individual orders generated and routed by an Algorithmic or Smart Order Routing system ("Child Orders" or "Child Routes") which are sent as standard Market or standard Limit orders are classified as "Market" or "Limit" orders in the Routing Statistics sections of this report. "Other" orders in the Routing Statistics sections include orders that request special handling (Stop orders, All-or-None orders, market opening or market closing orders, etc.).

This report has been prepared solely for information purposes and in compliance with Rule 606 (formerly 11Ac1-6) under the Securities Exchange Act of 1934) under Regulation NMS. The information provided herein is not intended to, and does not, encompass all the factors to be considered in a best execution analysis and related order routing determinations. Other factors may be relevant to evaluating the quality of order execution.

---

## Endnotes

- #1 Lime may receive payment for directing orders to this venue, which consists primarily of market liquidity rebates. The source and nature of such compensation received will be furnished upon written request.
